

Aalborg Airport's Environmental Policy

Aalborg Airport is committed to protecting and improving the environment, as a sustainable and responsible approach to the environment is valued and supported by all employees and stakeholders. Every day, Aalborg Airport strives to minimize the environmental impact of our activities in accordance with the principles of sustainable development.

For the successful implementation of Aalborg Airport's environmental policy:

- Aalborg Airport has a process of continuous improvement of its environmental performance and will actively work to reduce our environmental impact.
- Aalborg Airport will ensure a high level of environmental awareness and expertise. Airport employees should understand our key environmental aspects.
- Aalborg Airport complies with all relevant regulatory and other external requirements.
- Aalborg Airport keeps the key environmental aspects of our activities under constant review and is guided by the principles of reducing soil, water, and air pollution, as well as waste generation.
- Aalborg Airport constantly seeks innovative environmental solutions and is open to innovation.
- Aalborg Airport conducts an open, constructive, and proactive dialogue with owners, employees, customers, local communities, authorities, aviation organizations, and other stakeholders to reduce environmental impact.
- Aalborg Airport emphasizes and integrates environmental considerations in the early planning of projects and in the procurement of products and materials.
- Aalborg Airport takes a leading role in environmental issues and contributes to increasing awareness in society.
- Aalborg Airport seeks solutions to environmental challenges through collaboration with research and development institutions, authorities, and other national and international organizations.

Nørresundby, October 12, 2023

On behalf of the management of Aalborg Airport,

Niels Hemmingsen, CEO at Aalborg Airport
